Nex-Tech Donates to Hays Public Library Remodel

An important piece of the project to remodel the Hays Public Library is development of a business center. Nex-Tech has pledged \$10,000 to this project.

The purpose of the Nex-Tech Business Center is to locate most of the computers, printers, scanners and other devices in one area on the first floor. Having those resources, along with the assistance of a staff member, in one place instead of scattered around the library will create a more comprehensive workspace for patrons who otherwise don't have access to this type of technology.

Nex-Tech provided a similar gift for the renovation that was completed in 2004. Since that time the technology needs of the public have changed, and with Nex-Tech's donation to this project, the library will endeavor to meet those changing needs.

Construction is scheduled to begin in August. More information about the remodel project is available at hayslibrary.org/remodel.

Nex-Tech connects thousands of people and businesses through a robust broadband network with cutting-edge technology. Nex-Tech's powerful fiber-to-the-premise technology delivers leading-edge enterprise solutions to clients nationwide including cloud services, servers, security, phone systems, hosted PBX, managed IT, advertising solutions, and network operations monitoring. Nex-Tech employees are customer focused on providing the most effective technology solutions with unsurpassed user-friendly support. Headquartered in Lenora, Kansas, Nex-Tech has been delivering exceptional service for more than 65 years.
